RE: Support for Northwest Bakersfield Baseball Association (NWBBA) to continue providing recreational baseball leagues for youth in Kern County at the facility located at 4009 Chester Ave.

Dear Chairman and Members of the Board or Whom It May Concern,

I am writing to express my strong support for Northwest Bakersfield Baseball Association to continue their mission in providing a recreational youth baseball league for the youth and underprivileged children in our community. This league gives baseball beginners and intermediate skill levels a chance to grow, mature and for some develop "A love for the game". Over the past three decades, NWBBA has grown to service children as young as 4 years old in T-Ball all through high school. The passion and history of NWBBA speaks for itself as they continue to serve our youth. Over the years it has weathered many storms including COVID 19 in 2000 and has continued to persevere. Removing or replacing NWBBA from the Metro Center would be detrimental to the growth and development of youth baseball in our area.

My experience at Northwest Baseball includes:

I strongly encourage the members to allow Northwest Bakersfield Baseball Association to remain at their current location continuing operations set forth since 1997 for this upcoming lease term.

Sincerely,
